

The Northern Suburban Special Education District
ASSOCIATION OF PARENTS AND STAFF

The Association of Parents and Staff (APS) is an organization comprised of parents who have children with special needs in any of NSSSED's eighteen member school districts and the staff and administrators who serve them. Whether children are enrolled in an NSSSED instructional classroom or receive special education services through their district, all parents of children with learning differences are welcome. The APS brings parents and staff together to try and make a difference in the lives of children. Our goal is to effectively advocate for the ongoing needs and concerns of students with disabilities at school and within the community. We are committed to heightening awareness of learning differences, providing ongoing training and education to families and staff and offering support and connections to all.
